INFORMATION ON SAFETY RULES APPLICABLE TO MEDIA REPRESENTATIVES DURING SPORTS EVENTS AT TOR POZNAŃ

The present information concerns safety rules applicable on the Tor Poznań and refers to all representatives of the media (with permanent and one-time accreditations), with particular emphasis on photojournalists, camera operators and other devices performing their tasks during sports events organised by Automobilklub Wielkopolski.

1. **The media representative is required to wear a waistcoat with an identification number throughout the event!**
   Waistcoats for media representatives are issued by the Press Office of the competition.
   The waistcoat must be worn. It must not be clipped to a belt, or attached to a rucksack or slipped into a pocket.
   The number of the waistcoat must be visible. It must not be obscured by another item of clothing, or a backpack.
   The use of personal waistcoats by media representatives is strictly prohibited.

2. **Safety zones, so called Red Zones, have been designated on the grounds of Tor Poznań, with absolute prohibition of traffic during the event! These zones are marked red on the map. Staying in these zones or moving within them during the races is strictly prohibited.**
   During the event (at any time), the Clerk of the Course or Race Director may establish additional no-go zones if he deems it necessary for safety reasons.
   In the interest of ensuring the freedom of action of the medical services and the comfort of the competitors, media representatives are prohibited from photographing or filming within the medical centre.

3. **When carrying out his/her tasks, the media representative must be behind the protective barrier, and if there is a fence (net) directly behind the barrier, you must stand behind the net! Stepping between the barrier and the net is absolutely forbidden!**
   Do not:
   - Lean against or over the barrier.
   - Set up or mount photographic equipment or cameras on the barrier.
   - Stand in gaps between barriers, on escape routes or traffic links.
   - To enter the track if a competing vehicle has an accident (this will be signalled by a red flag - abandonment of the race). Crossing the protective barrier of the track and approaching the crashed vehicle in this situation will result in immediate removal of the media representative from the track and issuing by Automobilklub Wielkopolski a ban on working during events on Tor Poznań for the period 12 months.

   PLEASE REMEMBER THAT in the event of a serious incident on the track any photographic or film footage should not be made public. Any film footage should be handed over immediately to the

Panel of Sports Judges (ZSS) or the Chief Judge (SG) of the competition, for evidence and to investigate the circumstances of the incident.

4. **The use of headphones or earplugs while performing your task during the on-going rides on the track is strictly prohibited!**
   Maintaining radio communication, if any, is only possible by using one earphone.
   The use of music players while working on the track is absolutely forbidden.
   Be aware of your surroundings!

5. **Be particularly careful when driving in the pitlane area!**
   Do not impede the teams and their mechanics.
   Comply with the instructions of officials, marshals and security services.

6. **The use of a drone during the event requires special permission from Automobilklub Wielkopolski, as the entity administering the facility.** The intention to film the event by means of a drone must be notified by e-mail to: media@aw.poznan.pl, at least 7 days before the event. You will be informed of your permission to use a drone during the event in a return message.

7. **Service roads and escape routes must be unobstructed at all times during the event!**

WE REMIND YOU THAT:

- ✓ It is imperative that you obey the instructions of the officials, marshals and security services!
- ✓ Any verbal or physical abuse of officials, referees and security services will not be tolerated!

Due to the specificity and nature of the events held on the premises of Tor Poznań, you should make a rational assessment of the situation and follow the principles of limited trust towards third parties, including competitors taking part in the competition on the track, and thus take actions with particular regard to your own safety.

If you have any questions or concerns, please contact the Press Office, where you can get help!
